RAFFIA

Fashion and interior design merge in our Raffia, boasting the first fabric effect made on an advanced porcelain surface with three-dimensional texture. Through the digital printing and layering of different patterns and lines, Raffia is a tribute to the pixel art of the 80s, with its chromatic movement and alternating visual sequences that mimic textiles. Suitable for either indoor or outdoor floor or wall applications, the series is available in six colorways — white, ecru, grey, night, denim, or mix — and comes in an assortment of sizes
