# THINK THIN

---

Thin. Light. Large.

---

Nemo Tile's Think Thin 1.2 collection opens a new chapter in the evolution of natural stone tile. Building on the foundation of 3/8" thickness marble tile introduced fifty years ago, Think Thin 1/2" thick tiles allow piece sizes almost the size of a traditional slab. This breakthrough is a synthesis of advanced technology harnessed to cut, handle, and pack from quarry to installer. Think Thin 1.2 makes the following possible:

- Lower shipping costs by up to 50%
- Apply to any surface with proper substrate and setting material
- Seamless slab-like look with easy tile install

Lighter tiles make for easier handling and installation. These large format stone tiles make the impact of natural stone attainable for everyone.
