LOOM

Loom is a collection of full-body porcelain stoneware suitable for indoor and outdoor use on both floors and walls. Loom comes in pre-cut modules, featuring portions with different textures inspired by the techniques of knitting, crochet and embroidery. Once they have been laid and grouted, the modules become a complex combination of different elements, shapes and dimensions.

The collection is composed of two left patterns, and two right patterns.

Staggered end-to-end installation is mandatory for the best result.

Technical Information			
Finish	Matte-textured	Application	Interior and exterior floor and wall
Thickness	8.5 mm	Water absorption	0.04
Reaction to fire	Class A1-A1 FL	Frost resistance	Resistant
Resistance to thermal shock	Resistance	Chemical resistance	Resistant
Stain resistance	Class 5	Lead and cadmium free	Pb < 0.1, Cd < 0.001
Breaking load	580 N	Breaking strength	1658 N
Modules of rupture	57.1 N/mm ²	Resistance to deep abrasion	Vm (mm ³): 115
Slip resistance	Class A	Slip resistance	R10
DCOF	> 0.42
